## Call for papers

Dear LS-DYNA user,

we kindly invite you to participate at the 16<sup>th</sup> German LS-DYNA Forum and encourage you to actively contribute to the conference agenda by submitting a presentation about your experience with the LSTC product range. Participation without a presentation is also worthwhile to exchange your knowledge and discuss new solution approaches with other users.

Besides presentations from users, there will be also selected keynote lectures of renowned speakers from industry and universities as well as developer presentations from LSTC and DYNAmore. The popular workshops on various topics will also be continued.

We hope that we have stimulated your interest and are looking forward to receiving your abstract and to seeing you in Ulm.

## Forum

### Attending

In user presentations from industry and academia you will learn more about the software packages LS-DYNA, LS-OPT, LS-TaSC und LS-PrePost as well as their application possibilities for virtual product design.

### Presenting

Communicate your work with international colleagues to share knowledge and to stimulate discussions with other users about new solution approaches.

### Exhibiting and sponsoring

In the accompanying exhibition, numerous hardware and software manufacturers offer an insight into the latest news and trends around LS-DYNA. If you want to contribute, please request additional exhibitor and sponsoring information.

## Venue

### Maritim Hotel and Conference Center Ulm

The Maritim Hotel & Congress Centrum Ulm is situated in the center on the green banks of the Danube. Close to the historic Old Town, with a marvellous view of the banks of the Danube or the picturesque town centre and Ulmer Münster.

The fishermen's quarter with the historic half-timbered houses is about 20 minutes in walking distance, and the Ulmer Münster with the highest church tower in the world can be reached in about 10 minutes walking.
